

# Guardian Tip Sheet for Learning at Home

## Learning will look different than in the classroom

- Teachers will create online content, however, guidance will be necessary.
- Guardians are not expected to replace the role of the teacher; they are asked to simply assist children in accessing content online.
- Guardians should not expect to follow a regular school schedule and may wish to refer to the following sample schedules: [K-2 Schedule Example](#), [3-6 Schedule Example](#), [7-9 Schedule Example](#), [10-12 Schedule Example](#) (these are exemplars; times and activities are flexible).

## Here are some pointers to help you be successful learning at home

- Set a schedule. Keep children on their regular sleeping schedules (see above for sample schedules).
- Add breaks to the day: lunch, snacks, physical activities, playtime.
- Use mixed media: limit screen time by adding breaks, reading books, cooking together, playing a board game, or writing.
- Video chats are a great way to stay connected to friends and family.
- Keep contacting your child's teacher for guidance with home learning.

## Guardian Communication and How-to Guides

- Guardians who are not familiar with Google Classroom may wish to watch this video: [How-to Open & Navigate Google Classroom](#).
- Guardians who are not familiar with Brightspace/D2L (for Grades 7-12 only) can watch the following [video](#) and view the [Brightspace Pamphlet for Guardians](#).
- [Support for accessing your LEARN \(Google\) account and Read & Write at home](#).
