

# *Learning Commons*

*The goal of our Learning Commons is for multiple purposes. To enrich and enable all students to be engaged thinkers and ethical citizens with an entrepreneurial spirit.*

*The concept of a Learning Commons is a shift in thinking to blend the traditional library to an inclusive, flexible, learner centered, physical and or/ virtual space for collaboration, inquiry, imagination, and play to expand and deepen learning.*

*Our Learning Commons supports literacy, numeracy, competency development and student learning outcomes through access to and instruction in the effective use of print and digital resources. Quality print and digital learning resources in multiple formats that are reviewed to ensure they address a diverse range of student learning and developmental needs. Introduce and support students and teachers to online resources and searching tools.*

*To enhance Literacy with the magic of reading through storytelling time and to share books with students.*
