About me

My parents came to Canada from Holland and there were 10 children in our family. I had 5 sisters and 4 brothers. My family now is much smaller, I am married and have 2 children, a boy and a girl that I love bunches and bunches! I have always adored reading and learning, and a library is my favourite place to be in the whole world! One of my favourite things to do is help students find great books and learn all kinds of new things. If you have questions about something, come and see me and I will help you find answers!
