## Classroom Pet

We are welcoming our new classroom pet into Kindergarten, a Beta Fish. We will be learning about the needs of living things and taking care of a pet. The first family to let me know they would like to keep the fish when our classroom closes will home with our pet at the end of June!

## What are we learning about this month?

### Continuing Making Sets:

We will continue to learn about how we can make up numbers by combining smaller numbers. We will be exploring this concept for the rest of the year up to 10!

### Butterfly and Flower Activities:

We will start our units in taking care of living things learning about their needs. We will have caterpillars in the classroom and we will observe them as they go through their life cycle. As well, we will be planting flowers and other plants in the classroom! Both these activities will teach us about what different things need to grow and prosper!

### Invented Spelling and Sight Words:

We have been starting to use our letter sounds to help us sound out words that we know. We will continue to practice this skill to get us ready for writing stories in Grade One!
